(Hope With Options will not be hosting a Golf Fore Life event this year.)

"..let us run with perseverance the race marked out for us" Hebrews 12:1

New Development Director: Brandi McGarva

We are excited to announce our new Development Director, Brandi McGarva. Brandi joined Hope With Options in 2022 as our Office Assistant and since that time has been doing a great job in that role along with assisting with some of the development duties. After screening applicants and conducting interviews, it was clear that God was directing us to move her to focus on development and find someone else to fill the Office Assistant position.

In the Development Director role, Brandi will be focused on donor relations, designing fundraising plans, and developing church and community partnerships. We are confident that she will be a great asset in this position. Brandi loves connecting with people and representing this ministry in the community.

A Patient Story

A new patient came in for her first ultrasound and after Sarah showed them the heartbeat, both Mom and Dad were crying tears of happiness. Mom said, "Wow this is amazing. It didn't feel real before but now it does." Dad asked lots of questions about what was going on in the pregnancy and how he could best support his girlfriend. It was one of the most endearing appointments we've had.

Other comments:

"I'm so happy we found this place. I love it here!"

"Everyone is so nice here."

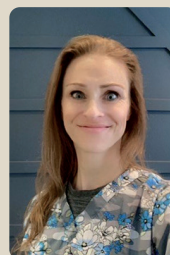

Beware that you don't look down on any of these little ones. For I tell you that in heaven their angels are always in the presence of my heavenly Father. (Matthew 18:10 TLB)

March 26, 2024 press release from Oregon Right to Life:

Oregon Health Authority Launches ‘Abortion Access’ Website

Salem, Ore. — Today, the Oregon Health Authority’s Reproductive Health Program announced the launch of an abortion access webpage. The site directs vulnerable women from Oregon and outside the state into an abortion pipeline.

The “Abortion Access” website contains vague content that could have dangerous consequences for many in our state. For example, the descriptions of abortion procedures fail to accurately describe what actually happens during abortions.

In addition, information provided on the site suggests that pro-life pregnancy clinics and resource centers, which offer vital resources and support for expecting mothers, are “fake clinics” because they do not provide abortions.

Oregon Right to Life Executive Director Lois Anderson said, “The ‘abortion access’ website is a political statement thinly disguised as healthcare information. Pro-life Oregon residents, medical providers, and others who may hold differing views on this issue are essentially erased from the conversation.”

“Oregon Health Authority should be prioritizing patient protection, not the profits of the abortion industry,” Anderson continued. “As the U.S. Supreme Court today considers restoring crucial guardrails on chemical abortion drugs, our state should be focused on creating more protections for pregnant women and the unborn – not marketing abortion.”

Women and families facing unsupported pregnancies are invited to explore life-affirming alternatives to abortion. Check out Oregon Right to Life’s list of local pro-life pregnancy resource centers at ortl.org.
